

# VIRTUAL INDUSTRY DAY - SHIP REPAIR

## NOVEMBER 18, 2021

### 1:00 PM ATLANTIC TIME (12 NOON EASTERN)

**Maintaining Canada's fleet is a priority** – a proud part of our history and a focus of the future. Choosing Canadian suppliers that meet our quality, cost and schedule criteria is also a priority.

We have delivered Mid-life Refits, upgrades to weaponry and other integral systems and special maintenance initiatives.

Maintaining and upgrading the Halifax Class Frigates means up to **\$120 million** in work for shipbuilders and suppliers over the next five years

Our **Virtual Industry Day** is all about renewing and engaging present and potential Canadian suppliers in maintaining today's fleet for those who serve.
