

# ENHANCED RECOVERY CAPABILITY (ERC)

## Scope :

The project involves replacing the existing fleet of CAF heavy tow trucks and related equipment. The resulting capacity will allow, using modern technologies, to efficiently recover newer and heavier armored and logistical vehicles that cannot be recovered by the current fleet.

## Status:

Definition Phase

## Next Step:

Summer 2020: Draft RFP

Fall 2020: Final RFP

2021/2022: Contract Award

2024/2025: IOC

2026/2027: FOC

## Qualified OEMs:

Rheinmetall

BAE Systems

Iveco Defence Vehicles S.p.A.

Mack Defense LLC

Navistar Defence LLC
